Matchup read

THE BOOTH'S READ ON TONIGHT

every figure from ipfinal before first ball

- 1

CHENNAI'S RECENT GRIP. Mumbai's 21-18 all-time lead is on the cover, but the recent era belongs to Chennai, who have taken six of the last ten meetings and both 2023 games. Wankhede is the stage where Mumbai must interrupt a rivalry that has tilted south over five years.
- 2

WANKHEDE CHASE BIAS. Chasing sides have won 8 of the 13 meetings here, so the toss winner will likely field. Whoever is asked to set must clear the 157.3 average first-innings total of the last 10 meetings, while the side chasing gets the venue's preferred route.
- 3

MIDDLE OVERS DECIDE. The side that outscored the other through the middle won 8 of the last 10 meetings, and 2026 shows Mumbai batting that phase at 158.3 against Chennai's 138.0. Whoever controls overs 7 to 15, with bat or ball, likely controls tonight.
- 4

SHARED FOES FAVOUR CHENNAI. Against the five opponents both sides have faced, Chennai are 2-3 and 10 runs to the good in aggregate, while Mumbai are 1-4 and 46 in the red. Chennai's two wins both came defending a first-innings total; Mumbai's lone shared-opponent win came chasing.
- 5

GAIKWAD PUNISHES MUMBAI. Ruturaj Gaikwad has made 291 runs off 192 balls against Mumbai at a strike rate of 151.6 and an average of 41.6, the fastest scoring of any batter in either probable XI against this opponent. His powerplay platform gives Chennai the start their set-or-chase plan depends on.
- 6

BUMRAH CAGES SAMSON. Sanju Samson has managed 64 off 61 balls against Jasprit Bumrah at a strike rate of 104.9, with 28 dot balls in the matchup. With roughly four projected balls between them early, surviving Bumrah is the opening task for the CSK wicketkeeper and the trigger for Chennai's middle order.
- 7

LEFT-ARM LOAD FOR MUMBAI. Chennai can field a left-arm-heavy attack through Noor Ahmad's wrist spin and the left-arm quicks Mukesh Choudhary and Gurjapneet Singh, and Mumbai's left-hand top order must answer: Quinton de Kock strikes at 129 against left-arm pace across 393 balls, Tilak Varma at 145 across 128. Both sides carry four overseas, with Corbin Bosch Mumbai's overseas Impact option.
- 8

SANTNER'S OLD CLUB. Mitch Santner spent 2019-24 at Chennai and now bowls his left-arm orthodox against his old side; since leaving he has 1/38 from 31 balls in two meetings, and Chennai's Sarfaraz Khan strikes at only 115 against left-arm orthodox from 66 balls. That matchup is Mumbai's quiet lever.
- 9

MI'S NUMBER 191.7. That is Mumbai's 2026 death-overs strike rate, the fastest phase rate either side has produced, and it is the late threat Chennai's expensive death bowling must contain.
- 10

CSK'S NUMBER 161.1. That is Chennai's 2026 powerplay strike rate from 216 balls, the best opening-phase batting either side owns, and it meets a Mumbai powerplay attack conceding 10.69 an over.

THE SHORT SIDE GETS HIT

Off-centre strips bring one square boundary in. Since 2023, 61% of the 459 sixes here have gone square (52% league-wide).

OFF AND LEG, BY END

RHB at the Tata End: off side W (Pavilion), leg side E (Gavaskar, Sharma). Flips at the Garware Pavilion End, and flips again for LHB.

BREEZE TONIGHT

From the NNW at 18-25 km/h (gusts 32), blowing from the Tata End toward the Garware Pavilion End, drifting E. Straight hits from the Tata End ride it, and so do a right-hander's leg-side hits from that end.

TONIGHT'S TAPE

Strip in use and the eight measured distances arrive at the toss; they replace the TYPICAL tags in the post-toss drop.

Suryakumar Yadav was born in Mumbai and came through the city's club and age-group ranks before debuting for Mumbai in domestic cricket. Mumbai Indians signed him in 2012; after a spell with Kolkata Knight Riders he returned to Mumbai in the 2018 auction. He made his India T20I debut in March 2021 and hit the first ball he faced for six, then became the national T20 captain in 2024. He took the boundary catch that dismissed David Miller in the 2024 T20 World Cup final, and captained India to the 2026 title.

One of four players with 2,500 IPL runs and 80 wickets, alongside Watson, Jadeja and Russell.

Hardik Pandya grew up in Gujarat, moved to Vadodara as a boy and came through Baroda and Kiran More's academy before Mumbai Indians signed him in 2015. He made his India T20 debut in 2016 and later captained Gujarat Titans to the IPL title in their debut season. Traded back to Mumbai, he now leads the side; this season Mumbai Indians sit near the foot of the table and his captaincy has drawn external scrutiny.

Sherfane Rutherford grew up in Enmore, Guyana, and came through the region's age-group and first-class sides before debuting for the West Indies in a T20I against Bangladesh. He announced himself at the Global T20 Canada, where an unbeaten 134 carried West Indies B past Vancouver Knights and into the final. A middle-order left-hander who bowls right-arm medium pace, he holds the T20I record for the highest sixth-wicket stand, 139 with Andre Russell in Perth. Mumbai Indians acquired him from Gujarat Titans in an off-season trade.

Mitchell Santner grew up in Hamilton, Waikato, and came through Northern Districts before earning a New Zealand one-day call-up on the England tour that followed his first full domestic season. He now captains the Black Caps in white-ball cricket and led New Zealand to a Champions Trophy final. After several seasons with Chennai Super Kings, where he was part of a title-winning squad, Mumbai Indians signed him at the auction for two crore rupees and retained him. He joined the squad late this season for the birth of his child. He is 3rd among MI's wicket-takers this season, with a share of the side's wickets, and took two of them in the one match MI have won.

Krish Bhagat, from Jalandhar, is a right-arm fast bowler who plays his domestic cricket for Punjab. He first came through the Mumbai Indians system as a support bowler in the franchise's practice set-up. His route was interrupted by a spinal cord injury and a missed India Under-19 World Cup camp before a CK Nayudu Trophy season restored it. Signed in April after Atharva Ankolekar's injury, he made his IPL debut against Gujarat Titans on April 20.

TONIGHT 3 PP + 1 Mid · projected overs 1, 2, 6, 13, from 2026 usage

Jasprit Bumrah was born in Ahmedabad and came through Gujarat's domestic set-up, making his T20 debut for the state in the 2012-13 Syed Mushtaq Ali Trophy. Mumbai Indians scout John Wright spotted him at that tournament and signed him ahead of IPL 2013, where his first IPL wicket was Virat Kohli. He has won five IPL titles with Mumbai and was Player of the Tournament when India won the 2024 T20 World Cup. He began this season without a wicket before striking with his first ball against Gujarat Titans on April 20. He is 6th among MI's wicket-takers this season, with a share of the side's wickets, and took one of them in the two matches MI have won.

Born in Paktia and raised in Kabul, Allah Mohammad Ghazanfar started as a fast bowler before switching to off-spin during the Covid lockdown, learning the craft from former Afghanistan captain Dawlat Ahmadzai. He debuted for Afghanistan as a teenager and took six for 26 against Bangladesh in Sharjah, among the best ODI figures by an Afghanistan bowler. Mumbai Indians bought him at the 2025 mega auction, and after a back injury cost him the previous season, he made his IPL debut against Kolkata in this year's opener. He is 1st among MI's wicket-takers this season, with more than a fifth of the side's wickets, and took two of them in the two matches MI have won.

Ashwani Kumar, a left-arm fast-medium bowler from Jhanjeri in Punjab's Mohali district, plays domestic cricket for Punjab and joined Mumbai Indians after their scouts watched him in the Sher-E-Punjab T20 league. He made his Ranji Trophy debut as a teenager after coming through Punjab's district and age-group ranks, then worked past injuries to break into the senior side. On his IPL debut he became the first Indian to take a four-wicket haul in the league, dismissing Kolkata captain Ajinkya Rahane. Recalled against Gujarat Titans this April, he took four wickets again. He is 3rd among MI's wicket-takers this season, with a share of the side's wickets, and took four of them in the one match MI have won.

Ruturaj Gaikwad, born in Pune, is the right-handed top-order opener who came through Maharashtra's age-group and Ranji ranks, making his first-class debut in 2016. Chennai Super Kings signed him and, after MS Dhoni stepped down, handed him the captaincy in 2024. He captained India to Asian Games gold and won the Orange Cap in a title-winning Super Kings season. This season he continues to lead CSK, fined for a slow over-rate following a win over Delhi Capitals.

Ayush Mhatre, 18, grew up in Virar on the outskirts of Mumbai and still takes the local train to training. He came through Mumbai's age-group ranks and broke the record for the youngest man to score 150-plus in a senior List A innings. Unsold at the IPL auction, he joined Chennai Super Kings as an injury replacement for Ruturaj Gaikwad and made his IPL debut against Mumbai Indians. He captained India to the age-group World Cup title.

Matt Short grew up in Ballarat, Victoria, on Australian Rules Football before cricket drew him to Melbourne and a Cricket Victoria contract. A move to the top of the Adelaide Strikers' order turned his career, earning back-to-back Big Bash Player of the Tournament awards and an Australia debut in 2023. He joins Chennai Super Kings from Punjab Kings after a thumb fracture earlier this year. His defining innings came in January 2023, an unbeaten 100 from 59 balls that completed the highest chase in Big Bash history.

Dewald Brevis grew up in Centurion and came through the Titans system. He announced himself at the 2022 Under-19 World Cup, where 506 runs made him Player of the Tournament and led to a Mumbai Indians contract. After three seasons with Mumbai, he joined Chennai Super Kings as a 2025 replacement, and was retained for 2026. In August 2025 his unbeaten 125 against Australia became the highest T20I score by a South African.

Bats #7 · Started all 6 games; never an Impact sub

18 runs from 2,000 IPL runs; he would be the 57th batter to get there.

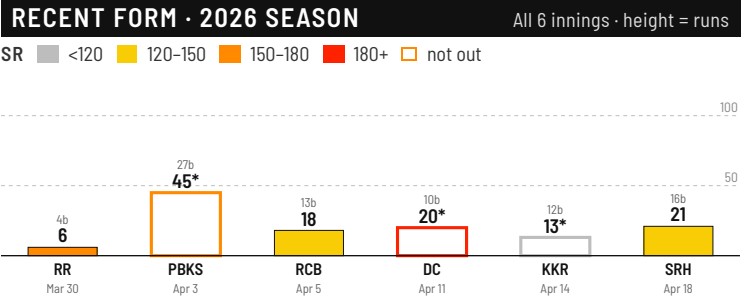

Left-handed Mumbai all-rounder Shivam Dube bowls right-arm medium pace and bats in the middle order. He stepped away from cricket as a teenager, returned through Mumbai's Under-23 setup, and made his name with power hitting and part-time seam. Royal Challengers Bangalore and Rajasthan Royals came first; Chennai Super Kings signed him at auction, where he was part of a title-winning campaign. A member of India's T20 World Cup-winning squads, his 27-run cameo in the 2024 final helped seal the trophy, and this season he has spoken about CSK rebounding from a slow start.

THE 2ND-BEST STRIKE RATE

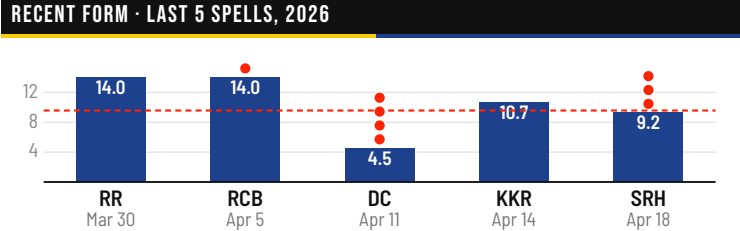

Jamie Overton was born in Barnstaple, Devon, and came through the Devon age-group pathway and Somerset's academy to a first-class debut as a teenager; he now bowls his county cricket for Surrey. At six foot five, he is the twin brother of fellow England seamer Craig, and he marked his England Test debut at Headingley with a 97. Having stepped back from red-ball cricket to focus on white-ball, he was signed by Chennai Super Kings at the IPL mega auction and retained. He is 2nd among CSK's wicket-takers this season, with more than a fifth of the side's wickets, and took four of them in the two matches CSK have won.

Anshul Kamboj, a right-arm pacer who learned the game at an academy in Karnal, broke into first-class cricket with Haryana. A ten-wicket haul in a Ranji Trophy innings against Kerala, only the third in the competition's history, brought the attention that led him to the IPL with Mumbai Indians and then Chennai Super Kings. He made his India Test debut against England at Old Trafford, and in this season's IPL he has bowled with the new ball and at the death for CSK. He is CSK's leading wicket-taker this season, with more than a third of the side's wickets, and took five of them in the two matches CSK have won.

Boxes: highest overlap first; a box with no previous meeting gives way to a top-7 batter he has bowled to. H2H: career, before tonight; under 12 balls, the box shows his line v batters of the same hand and order bracket (top 1-3, middle 4-6, lower 7-11). Likely meet: overs where his 2026 usage meets the batter's crease time, with matches at the crease in that over (of matches played).
